A MINI MAKEUP MOGUL IN THE MAKING

I've always loved beauty and fashion. My mom has always let me play in her makeup and get creative with my hair while letting me figure out my own style. This has inspired me to start my own tween beauty brand full of bold, creative and fun colors . The mission is to spread the joy of beauty and provide a safe space for girls to be able to express their individuality in a creative way. The vision is to evolve into a full line of glitter eyeshadows, lip-gloss , glitter and colored hair spray, nail polish and makeup inspired hair accessories. The beauty industry is in need of a safe space for girls to feel safe to have fun with makeup but also safe to feel ok with who they are. I want to create that. I dream that my brand will go global. Thank you for helping!
